

# Single Sign-On for Fashion & Lifestyle

## Overview

A large Fashion and Lifestyle company found a way to give its employees quicker access to the multiple applications needed to do business daily.

**Industry:** Fashion & Lifestyle

**Location:** India

**Users:** 4000

**Applications:** Multiple SAP thick client

**Web Applications:** 10+

## Challenges

- Multiple logins required to multiple applications
- More time spent on logging into individual apps
- Loss of productivity

## Results

- Enhanced user experience
- Increase user productivity
- Reduced need for multiple logins
- Quick access to all apps

## Business Pain

This enterprise had multiple SAP systems and more than ten web applications that required logging into each individual application daily. The users reported experiences that were frustrating, time consuming and resulted in tremendous productivity loss.

XpreSSO to SAP was the answer to this challenge with no other vendor offering a similar solution in the market.

## Business Requirement

- The solution should perform Single Sign-on to Multiple SAP systems via thick client SAP interfaces
- The solution should perform Single Sign-on to multiple web applications.

## Solution: Xpress Sign On to SAP

XpreSSO to SAP helped the customer by greatly reducing the multiple logins. Users are only asked for credentials to their workstation logins. Once logged in, the XpreSSO to SAP intelligently creates the session, allowing the user to access all the SAP systems and web applications seamlessly via a single web interface. Users are now only required to provide the password once. No more frustration. User experience improved.
